

Associations, Events and Partnerships

Logic Design's involvement and participation in a range of industry and educational trade shows gives students and educators alike the chance to meet face-to-face with some of the CircuitLogix product developers and discuss any issues they may have with the software.

Events

Come see us at any of the following educational trade shows for electronics and engineering educators:

Partnerships

There are presently seven fully accredited Colleges in North America who partner with Logic Design to offer distance education electronics programs using CircuitLogix exclusively for their lab simulation requirements. With over 10,000 students studying electronics through these partners, CircuitLogix is the world leader in electronics lab simulation for E-Learning. They are:

Allen County Community College, Kansas
Edison College, Florida
George Brown College, Toronto, Canada
Hocking College, Ohio
Miracosta College, California
Mount Wachusett College, Massachusetts
